QR CAD

This tool allows the user to ensure the printed blueprint is the latest version of the CAD document.

License

QR CAD is licensed under the terms of the [EULA - OpenKM End User License Agreement](#) as published by OpenKM Knowledge Management System S.L.

This program is distributed WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the [EULA - OpenKM End User License Agreement](#) for more details.

QR CAD compatibility

App version	OpenKM Compatibility		Status
	Professional	Community	
1.1	Versión 7.1.14 and upper	Not compatible	Active
1.0	Version 7.1.10 to 7.1.13	Not compatible	Deprecated

Configuration

This application requires a working OpenKM 7.1 installation and the proper configuration, and mobile with a recent version of Android or IOS.

Please, create a support ticket at [OpenKM support website](#) and the support team will check if your instance meets the requirements and will install and configure the application.

User guide

This tool allows the user to ensure the printed blueprint is the latest version of the CAD document.

Print the document

1. Go to AutoCAD document preview
2. Click on Next Menu Page
3. Click on QR icon
4. Download the generated ZIP
5. Print the downloaded AutoCAD file with the embedded QR

Check the printed document version

1. Use your mobile to open the URL <https://your.openkm.com/qrcad/app>
2. You will be asked to add this application to home screen (it's recommended)
3. Point your mobile camera to the QR code in the printed blueprint
4. The application will show the result:
 1. **green** id it's the latest version
 2. **red** if there is a new one

Document with latest version	There is a new version available
